SUMMARY

I am a web developer enthusiast exploring many web frameworks and UI development stacks. Seeking out opportunities to explore more projects to learn new technologies. Strong creative and analytical skills. Team player with an eye for detail.

SKILLS

Technical Skills: HTML5, NodeJS, ReactJS, NextJS, TypeScript,

Frontend: HTML, CSS, JavaScript, jQuery, Bootstrap, React JS, Next.js, Material UI, Tailwind, Shadcn, Zustand, TanStack Framer motion.

Backend: NodeJS, ExpressJS, REST API, AuthJS, selenium .

Database: MySQL, MongoDB.

Programming Languages: Java (Core Java), python.

Additional Skills: Problem-solving, Strong communication, 3D modeling, Texturing, Lighting, 3D animation.

WORK EXPERIENCE:

Company name : Kenmark Itan Solutions

Role : Front-End Developer

Total Experience: 2 year 9 Month

Airport Lighting Control System Dashboard

- Developed a **real-time** industrial control dashboard for airport runway and taxiway lighting systems using React.js, **Socket.IO**, and **Modbus TCP** communication protocols.
- Built interactive **airport layout visualization** with zoom/pan capabilities, real-time status indicators, and drag-and-drop device management for runway, taxiway, PAPI, and approach lighting systems
- Created responsive UI components using **Canvas**, Tailwind CSS and Radix UI, featuring real-time data visualization, fault monitoring, and **remote control** capabilities for **industrial lighting** equipment
- Integrated **WebSocket** communication for live data streaming, implementing optimized batching mechanisms (**60fps**) and connection health monitoring to ensure reliable real-time updates
- Developed domain management system with **automatic** failover, health checks, and **multi-server architecture** to maintain **24/7 operational** availability for critical airport operations

Smaaash Bookings Engine [Website](#)

- **UI Development:** Designed and developed multiple pages including gaming time slots, checkout, cart, and offers pages using React.js, Next.js, and Tailwind CSS, Shadcn, TanStack, Context API etc.
- **Dynamic Routing:** Implemented dynamic routing to manage different gaming categories (Bowling, Cricket, Go-Karting) with real-time availability and time slot selection.
- **Booking System:** Enabled users to book gaming slots, select centers, number of games, and choose time slots. Integrated dynamic time slot data from the API to display available times. .
- **Offer Page:** Developed a comprehensive offers page with multiple offer types (e.g., liquor offers, family bundles) that users can select. Offers had complex validation logic (e.g., offer limits per user, center-specific offers). **Popup Forms:** Created popup modals for login verification, offer selection, and add-to-cart functionality.
- **Authentication:** Integrated JWT authentication for user login and secured booking data.
- **State Management:** Utilized React Context API for managing authentication and booking data, avoiding prop drilling and simplifying state flow.
- **API Integration:** Connected front-end to various back-end services for dynamic data fetching, including game availability, offers, and user sessions.

Corporate/Media Website [Website](#)

- **Full-stack** corporate/media website using Next.js 15 (App Router), React 19, MySQL, and Prisma; built 95+ components with Radix UI/shadcn, Tailwind CSS v4, Zustand and TanStack Query for data fetching and caching.
- Implemented role-based access control (RBAC) for the admin panel with SUPERADMIN, HR, CONTENT_MANAGER, and CUSTOM roles; secured APIs with JWT in HTTP-only cookies and bcrypt for authentication.
- **Drove enterprise SEO** by adding **dynamic sitemap**, **robots.txt**, **JSON-LD structured data**, **canonical URLs**, and image alt attributes, improving estimated technical/on-page SEO to **~90/100**.
- **Built content and campaign management** with **display-location filtering**, **incremental loading/pagination**, TanStack Query caching, and Sharp.js WebP conversion with BLOB storage for media.

CERTIFICATE

Front End Development Libraries(React Js)|FreeCodeCamp|2023

JavaScript Algorithms and Data Structures|FreeCodeCamp.com|2022

EDUCATION

Bachelors of Computer Engineering | University Of Mumbai | Maharashtra | 2020-2023

Diploma of Information Technology | Maharashtra State Board of Technical Education| Maharashtra| 2018-2020
